

Customer Support Service Levels

1. Purpose

This document sets the service levels for customer support.

2. Channels and hours

Phone and chat support run from 08:00 to 22:00 IST, seven days a week. Email support is answered on working days.

3. Response times

Chat: first response within 2 minutes. Phone: answer within 60 seconds for 80 percent of calls.

Email: first response within 24 hours.

4. Priority levels

P1 (payment taken but order not created, or account security issue): resolve within 4 hours.

P2 (delivery problem or wrong item): resolve within 2 working days.

P3 (general question or feedback): resolve within 5 working days.

5. Escalation

If a P1 issue is not resolved within 2 hours, it is escalated to the shift supervisor. Unresolved P2 issues are escalated to the team lead after 1 working day.

6. Customer satisfaction

The target customer satisfaction score (CSAT) is 4.3 out of 5, measured by a survey after each closed ticket.

7. AI assistant

An AI assistant may answer customers only on the chat channel, must show that it is an AI, and must hand over to a human agent when the customer asks or when a refund above INR 5,000 is involved.
